Experience

Plume Design, Inc. Ljubljana, Slovenia
Frontend Developer Jul 2022 – Oct 2024
- Contributed to the custom UI components library that was used across all company projects.
- Developed and delivered key features for multiple React-based applications, collaborating closely with design, management, API, quality assurance and translations teams.
- Acted as the main point of contact for a key company application ensuring smooth collaboration.
- Solely responsible for creating custom emails and push notifications reaching end users using Braze customer engagement platform, HTML and Liquid, ensuring accurate content and functionality.
- Assisted the manager in distributing tasks across part of the front-end team to ensure balanced workloads and timely project delivery.
- Utilized TypeScript, React, SCSS, GraphQL and Storybook to build and maintain high-quality UIs.

Marand, d. o. o. Ljubljana, Slovenia
Full Stack Developer with a focus on Frontend Jul 2021 – Jun 2022
- Developed, designed, tested, and maintained a custom Jira plugin used internally, adding new features based on team and manager requirements to enhance productivity and improve workflow management.
- Designed and introduced new features to a legacy application for a client, improving its functionality and extending its lifespan while ensuring minimal disruption to existing users.
- Utilized HTML, vanilla JavaScript, CSS, Java, and SQL to support new and legacy applications.

Additional activities and education

Kersnikova Institute Ljubljana, Slovenia
Youth mentor Feb 2024 - today
- Mentoring children in programming, Arduino, DIY electronics, conducting fun science experiments and more.
- Encouraging creative thinking and innovation through cross-disciplinary learning.
